ASEM Education 2030
Action Plan
1. Introduction

This Action Plan embodies the practical implementation of the ASEM Education Strategy 2030 as it lists actions that ASEM Education partners and stakeholders are carrying out or are planning to carry out to realise the ambitions of the ASEM Education Strategy and reach the four strategic objectives identified for the next decade.

Through exchange and collaboration, Ministers, senior officials, policymakers, experts, researchers and stakeholders’ representatives all have a role to play; pooling resources, identifying synergies and strengthening ties with relevant partners and stakeholders are at the heart of this action plan.

The Action Plan is divided in four parts. The first part provides an overview of the four strategic objectives and subgoals identified in the ASEM Education Strategy 2030. Each objective is associated with a pictogram for easier reading.

The second part specifies different actions to implement to realise these four objectives. Existing ASEM Education projects, activities and initiatives are listed under each action, together with suggestions and ideas for new projects or initiatives.

The third part of the action serves as a reminder of the existing structure and organisation of the ASEM Education Process, in which projects and initiatives will be further developed and implemented. It briefly presents the different actors and supporting structures and institutions and their role.

The fourth part details how the monitoring of the ASEM Education Strategy and Action Plan 2030 will take place using existing documents and reporting processes and what is expected from the different actors.

Finally, the last section focuses on the interactions of the ASEM Education Process as a multilateral forum in a wider ecosystem and details how ASEM Education partners and stakeholders will seek to foster collaboration with relevant multilateral processes and organisations to avoid duplication of efforts and to identify synergies where possible.

This Action Plan is a live document: relevant projects can be added and new stakeholders can be involved at a later stage should ASEM Education partners and stakeholders find it appropriate.

2. Overview of the Strategic Objectives and Subgoals

This section provides an overview of the four strategic objectives and corresponding subgoals as outlined in the ASEM Education 2030 Strategy Paper. Coloured pictograms and
numbers are associated with each objective and subgoal to facilitate reading of the table included in the following section.

**Strategic Objective 1: Enhancing Connectivity between Asia and Europe by Boosting Inclusive and Balanced Mobility and Exchanges**

1.1 To implement and promote physical mobility programmes with an equal balance between Europe and Asia with special attention dedicated to inclusive access to mobility opportunities

1.2 To boost inclusive blended and virtual programmes for mobility and exchange between Europe and Asia

**Strategic Objective 2: Promoting Lifelong Learning (LLL), Including Technical and Vocational Education Training (TVET)**

2.1 To raise the profile of LLL and TVET

2.2 To collaborate with business and industry

**Strategic Objective 3: Fostering the Development of Skills and Competences**

3.1 To stimulate the development of transversal skills through mobility and exchange programmes between Europe and Asia

3.2 To promote and support skills for sustainable development in order to foster related values, skills, attitudes and knowledge in Europe and Asia
To identify and promote supportive policies and good practices on the development of digital skills and on bridging the digital divide

To bring together expertise to anticipate the future demand for skills in both regions

**Strategic Objective 4: Creating More Transparency and Mutual Understanding on Recognition, Validation and Quality Assurance**

To improve transparency and mutual understanding to strengthen interregional cooperation, mobility and exchanges

To foster transparency on validation and recognition mechanisms in order to promote and encourage the creation of personalised and relevant learning pathways
3. Structure and Organisation of the ASEM Education Process

3.1. Two-year Meeting Cycle

Since its establishment in 2008, the ASEM Education Process (AEP) has been organised around a **two-year cycle**. Every two years the ASEM Education Ministers gather during the Ministers’ Meeting (ASEMME) to set the **political and practical AEP agenda**, which is then laid out in the Chair’s Conclusions of the ASEMME.

Ministerial meetings and this agenda are prepared by the **Intermediate Senior Officials’ Meeting (ISOM)** and **two Senior Officials’ Meetings (SOMs)** during which senior officials and stakeholders discuss the policy orientation of the AEP, as well as existing and potential future projects, initiatives and activities. All meetings are hosted by a Ministry with the support of the ASEM Education Secretariat (AES).

This Action Plan, approved by the Education Ministers during ASEMME8, will set out the framework for the practical implementation of the ASEM Education Strategy 2030 and will serve as basis to **develop the two-yearly work plan** that will be outlined in the Chair’s Conclusions.

3.2. Main Actors of the ASEM Education Process

3.2.1. Policymakers and Stakeholders

The Asia-Europe Meeting and the ASEM Education Process are **informal political fora** in which **policymakers and stakeholders work together** based on mutual trust and respect.

Policymakers involved in the AEP are mostly senior officials, ministers and their representatives from Ministries in charge of education or higher education from all ASEM partner countries, as well as representatives from both institutional partners, namely the EU and ASEAN. Their expertise and policy responsibilities mainly lie in the field of international cooperation in (higher) education. Policymakers are involved in political meetings (SOMs, ASEMMEs), as well as in projects and initiatives within the ASEM Education Process.

Most ASEM Education initiatives, programmes and projects are **coordinated and implemented at stakeholder level**. There is a lively interaction between the political and the stakeholder level: both policymakers and stakeholders take part in initiatives, conferences, working and expert groups organised by stakeholders while stakeholders contribute their views and expertise to the policy debates and are invited to attend policy meetings (e.g. I/SOMs, ASEM ME).
The term “stakeholders” refers to all institutions, organisations, interest groups, etc. who are involved in the ASEM Education Process or have an interest in its success but are not official partners (= Ministries of Education) of ASEM. The most active stakeholder in the AEP is the Asia-Europe Foundation (ASEF), the only permanent institution of ASEM. Other stakeholders currently involved in the ASEM Education Process are: ASEM-DUO Secretariat, ASEM Lifelong Learning Hub Secretariat (University College Cork), Asia-Europe Institute (AEI), the Asian Development Bank (ADB), ASEAN University Network (AUN), European Association of Institutions in Higher Education (EURASHE), European Centre for the Development of Vocational Training (CEDEFOP), European External Action Service (EEAS), European Network for Quality Assurance in Higher Education (ENQA), European Quality Assurance Register for Higher Education (EQAR), Erasmus Student Network (ESN), European Student Union (ESU), the EU Support to Higher Education in the ASEAN Region (EU-SHARE) Programme, European Training Foundation (ETF), European University Association (EUA), International Association of Universities (IAU), Institute for Adult Learning Singapore (IAL), Southeast Asian Ministers of Education Organisation, Regional Centre for Higher Education and Development (SEAMEO RIHED), Technical University of Applied Sciences (TH Aschaffenburg) and UNESCO (UNESCO headquarters, UNESCO UIL and UNESCO UNEVOC).

The list of stakeholders is not restrictive; organisations or institutions with relevant projects or initiatives, which contribute to the Strategy 2030’s strategic objectives, can be included to this list in the future.

### 3.2.2. Supporting Institutions and Structures

To implement the wide range of projects and initiatives outlined in the Action Plan and realise the ambitions of the 2030 Strategy, ASEM Education partners and stakeholders can count on the permanent support of the following existing institutions and structures and their capacities.

**ASEM Education Secretariat**

The ASEM Education Secretariat (AES) was established during ASEM Ministers of Education during ASEMME2 in 2009 to ensure effective coordination of ASEM Education Process initiatives and projects. In addition to its coordination role, the AES facilitates ASEM Education activities, represents the ASEM Education Process during regional and international events and liaises on a regular basis with existing and potential partners and stakeholders to identify synergies and initiate collaborations. The AES is at the heart of the ASEM Education community, it contributes to institutional memory and coherence between initiatives to avoid duplication. Asian and European countries take turns hosting the secretariat every four years on a voluntary basis to guarantee the continuity of the ASEM Education Process.

**The Asia-Europe Foundation (ASEF)**
The Asia-Europe Foundation (ASEF) is an intergovernmental, not-for-profit organisation which brings together the people of Asia and Europe to address common global challenges. It is the only permanent institution of the Asia-Europe Meeting political dialogue process and is publicly funded by voluntary contributions from the 53 ASEM partners. Education is one of ASEF's key thematic areas. By connecting youth, students, teachers and educators, higher education leaders and experts with policymakers across both regions through different projects, ASEF contributes significantly to the strategic objectives.

**ASEM Lifelong Learning Hub Secretariat**

The Secretariat of the ASEM Education Research Hub for Lifelong Learning coordinates a platform for dialogue between researchers, practitioners and policymakers composed of six thematic research networks. The ASEM Lifelong Learning Hub and its Research Networks shall play a significant role in building robust engagement between researchers, policymakers and stakeholders, in identifying research topics and translating research results into policy recommendations, thereby contributing to the four strategic objectives.

**ASEM-DUO Secretariat**

The ASEM-DUO Secretariat based in Korea coordinates the ASEM-DUO Fellowship Programme, one of the flagship initiatives in the ASEM Education Process that contributes to balanced mobility between Asia and Europe. The mission of the ASEM-DUO Secretariat is to serve as a focal contact point and depository for relevant information about the programme. Minimum coordination among individual DUO programmes is indispensable in order to maintain consistency and avoid duplication, as well as to maximise its effectiveness and minimize the cost of its implementation. The Secretariat may also serve, depending on each country’s needs, as a centre for the receipt and processing of applications. As of October 2021, seven ASEM countries are financially contributing to the balanced mobility through ASEM-DUO fellowship programs which are Belgium, Germany, India, Republic of Korea, Singapore, Sweden and Thailand.

5. Planning and Monitoring of the Action Plan

The ASEM Education Secretariat (AES), in close interaction with the coordinators of the projects and initiatives and with the support of the Standing Working Group, will be in charge of monitoring the implementation of this Action Plan and assess to which extent activities and projects carried out have contributed to the four strategic objectives formulated in the ASEM Education Strategy 2030.

**Every two years**, ASEM Education partners and stakeholders will update each other on their future plans through the Chair’s Conclusions presented and endorsed during the ASEM Education Ministers’ Meeting (ASEMME). The annex of the Chair’s Conclusions will serve as a work plan for the next two years and will detail concrete plans for activities under each project or initiative. It will also specify expected outputs and results and explain how partners and stakeholders’ activities contribute to the strategic objectives.

Finally, the **Stocktaking Report**, published every two years by the AES, will be the main instrument for monitoring the implementation of the ASEM Education Strategy and progress of activities listed in this Action Plan. Senior officials, partners and stakeholders are expected to actively contribute to this report by providing regular updates on their on-going activities to the AES.
6. The ASEM Education Process as a Multilateral Forum in a Wider Ecosystem

The ASEM Education Process is part of a wider ecosystem involving a large network of international actors and organisations. In the next decade, closer cooperation and dialogue will not only be fostered and reinforced with existing ASEM Education partners and stakeholders\(^1\), but will also be encouraged with other relevant multilateral processes and organisations, such as the Bologna Process (BFUG) (especially in the framework of the Bologna Global Policy Dialogue), Asia-Pacific Economic Cooperation (APEC), Asian Development Bank (ADB), Organisation for Economic Co-operation and Development (OECD), the Groningen Declaration Network (GDN), as well as quality assurance and recognition bodies (e.g. European Association for Quality Assurance in Higher Education (ENQA), ENIC-NARIC network). This list is not exhaustive nor set in stone; ASEM Education partners and stakeholders will continually seek to connect and exchange with other multilateral actors and fora where relevant.

ASEM Education partners and stakeholders will seek to make the best use of existing resources and contribute to relevant initiatives, tools or publications and, where possible, emphasise the Europe-Asia dimension. Furthermore, special attention will also be devoted to better communication on ASEM Education Process's activities, projects and initiatives in order to identify potential synergies and strengthen relationships with multilateral actors sharing similar goals and priorities.

Finally, ASEM Education partners and stakeholders will seek to create more opportunities for dialogue and systematic exchanges with the overall ASEM Process. Dialogue between both processes should be enhanced by regular updates on each other's activities and exchanges of relevant documents and materials. In the future, a point on the agenda of senior officials’ and ministerial meetings could be dedicated to an update on the state of play of ASEM Foreign Ministers’ activities. This should not only lead to increased visibility of ASEM Education activities, projects and initiatives within the overall ASEM Process, but also to more coherence between both processes.

---

\(^1\) 51 partner countries, 2 institutional partners (the European Union and the ASEAN Secretariat), ADB, AEI, ASEP, ASEM-DUO Secretariat, ASEM LLL Hub Secretariat (University College Cork), AUN, CEDEFOP, DAAD, EEAS, ENQA, EQR, ESN, ESI, ETT, EUA, EURASHE, EU SHARE, IAL, IAU, SEAMEO RIHED, TH Aschaffenburg and UNESCO (UNESCO headquarters, UNESCO UIL, UNESCO UNEVOC).
